Storage is off-site; contact the Utah State Archives to order.

DESCRIPTION: This series contains informational data gathered by the Utah Educational Survey Committee. The committee was a fact finding body appointed in 1939 by Governor Henry H. Blood. Their purpose was to identify significant problems of public education in Utah and to produce a report for presentation to the Governor "on or before July 1, 1940." The Committee made extensive use of questionnaires in their research. The questionnaires dealt with various topics relevant to the Committee's identified concerns and were dispersed to educators throughout the state. A number of preliminary reports are also included, indicating how the questionnaires were used to formulate the Committee's eventual findings.

ARRANGEMENT: The arrangement is alphabetical by subject. The records for the Elementary Education Daily Program found in box 1, folders 16-30 are further divided by the originating school district. Additionally, there are general files (A, B, C, etc.) located at the start of some alphabetic sections containing short documents or reports that did not justify an individual folder.

RELATED RECORDS: CORRESPONDENCE, series 1216, documents the communications that flowed between the Utah Educational Survey Committee members, its research director, and local and national educational bodies. MINUTES, series 23749, contains official minutes and transcripts of meetings and public hearings held by the Utah Educational Survey Committee. Agendas, attendance rolls, invitations, and relevant correspondence are also included. REPORT, series 23746, contains a one volume report published by the Utah Educational Survey Committee. CORRESPONDENCE, series 186, contains Governor Henry H. Blood's incoming and outgoing correspondence, including some pertaining to the Utah Educational Survey Committee.

PROCESSING NOTE: This series was processed by Anissa Taylor in May 2001.

PREFERRED CITATION: Cite the Utah State Archives and Records Service, the creating agency name, the series title, and the series number.
